

## SLANGENIPPEL, UDVENDIGT GEVIND

### Serie Adapters

3040 12-3/8

Slangenippel, Ø12 mm, udv. RG 3/8"

- Forniklet messing
- Trykområde op til 150 bar
- Temperaturområde op til +300 °C

### PRODUKTBESKRIVELSE

Serien "Adapters" er Aigneps største serie og består af en række forniklede messing fittings. Der er utallige mulige konfigurationer med de forskellige størrelser i nipler, reduktioner, propper, slange-adaptre, aluminiums manifold samt lyddæmpere i forskelligt materiale. Serien bruges i forbindelse med: - Overtryk - Pneumatisk automation - Kølevand - Inerte gasser, damp og andre væsker - Vakuumpplikationer

### SPECIFIKATIONER

|                      |                   |
|----------------------|-------------------|
| Form / Type          | I                 |
| Gevind type test     | Konisk            |
| Materiale body       | Forniklet messing |
| Pakningsstørrelse    | 10 pc             |
| Slangediameter indv. | 12 mm             |
| Temperaturområde fra | -20 °C            |
| Temperaturområde til | 300 °C            |
| Tilslutning          | G3/8              |
| Trykområde max       | 75 bar            |
| Trykområde min       | -0,99 bar         |
